EYE, EAR AND CATARRH.

At the Continental Hotel, Salt Lake City

I have been afflicted with Hemorrhoids (or Bleeding Piles) for the p-st
twenty-five years. For several weeks
past the pain has been so intense that I
was forced to quit work. I found no
relief either day or night, and was frequently compelled to walk the floor all
night long, as it was impossible for me
to sleep. In this condition I called on
Dr. Prentice at the Continental Hotel
who, after a painless operation of less
than one minute, relieved me from all
pain and I have been able to sleep and
rest well ever since.

rest well ever since.

I consider myself perfectly cured, and unsolicited offer this testimonial for the benefit of those who may be similarly affilicted. HENRY GREGORY, 149 N. West Temple Street. BALT LAKE CITY, July 3d, 1888.

MADE HANDSOME.

Mr. B. H. Shettler, of Zion's Savings Bank, has a bright and intelligent little daughter nearly 9 years old but she has suffered the unfortunate disfigurement all her life of being badly cross-eyed. Susie M. Shettler's parents were very loath to trust any one to operate on her eyes. But they had faith enough to trust Dr. Prentice, and he has made the eyes perfectly straight, which was done in less than a minute, and Susie Shettler is now a handsome little girl, while her parents are well pleased.

BATISFIED AT LAST

George A. Smith, of Salt Lake City, is a young man well and favorably known throughout Utah. He has been anown throughout Otan. He associated with a bad case of cross-eyes all his life. Several years ago he had an operation performed by an oculast, but it was not successful and did no good, consequently his faith was very much shaken about its ever being made straight. But at the Continental H tel on Monday of this week, Dr. Prentice made it straight in less than balf a minute. Mr. Smith is delighted with the result and his many friends astonished. Mr. Smith said it caused him practically no pai.

AN OPEN LETTER.

SALT LAKE CITY. June 21st, 1888.

I was born in the pretty little village of Underwood, Devonehire, England, in the year 1822. I remained at home and worked on the farm until I was 19 years old. The recollection of those early days are very pleasant to me as life creeps on. After leaving the farm I spent fourteen years, in the English navy. In 1872 I same to America, and six years ago I came to Salt Lake. The only blight to my life, especially my boyhood days, when life should have been the bright est, was a disfiguren ent that I was born with, namely, cross eyes. I never will know just how much difference it has made in my life, but I know it made a great deal in my early days. I've been cross-syed 66 years. On Monday of this week Dr. Prentice straightened my eyes in half a minute, without causing me any pain. Even at my age I am proud to have afraight eyes for the ballance of my days. I call at Dr. Prentice's office at the Continental Hotel. Salt Lake City, nearly every day, and have seen him do operations without SALT LAKE CITY, June 21st, 1888. Salt Lake City, nearly every day, and have seen him do operations without pain that are almost mirsculous. It is with pleasure I add my testimony.

HENRY HONEY, 746 First South Street, East.

SHE NEVER SAW A MARDI-GRAS.

"I have lived in New Orleans all my life, and never have seen a Mardi-Gras. From early childhood I have been troubled with bad sight, and always depended on my companions to inform me of the subject, otc., and tell me what was passing by I had always to use the strongest kind of opera glasses in in addition to my eyeglasses, procured from the leading opticians, and yet I never saw a procession of any kind to my satisfaction, or near as well as other people could, until the Momus procession of last week. I could then, for the my satisfaction, or near as well as other poople could, until the Momus procession of last week. I could then, for the first time in my life, read all the signs and posters, saw all the figures on the flats and the minutest dt tail distinctly. "I could never see the music score when seated at the piano, and could not sing from a sheet of music when any one else held it. I have passed friends and sequaintances on the street, never being able to distinguish them. I have sat in a street car and handed my fare to my husband them. I have sat in a street car and handed my fare to my husband and did not know him. I could have ridden all the way home with him. not knowing who he was if he did not speak. In fact, I could hard'y mention the many instances of annoyance my bad sight has caus d. I have tried leading coculists, and got glasses from the first optitions of the country. I have underwent constitutional treatment, took ever so many drugs, all to no purpose.

derwent constitutional treatment, took ever so many drugs, all to no purpose, I finally resigned myself to my sad fate, and thought I'd make the best of it. But at last I found perfect relief in skillful treatment and application of glasses by Dr. Prentice, and I shall never know how to express my gratitude for all ne has done for me. He has most certainly given me a pair of new eyes. Mas. J. Z. MILLER, "612 St. Claude Street, N. O., La.

Is 1885 Dr. Prentice invented and copyrighted a mathematical system for fitting spectacles or glasses which is undoubtedly, the most accurate of any now in use. It is used in England, Holland and France. Dr. Gatdner, of Chicago, says it is the true principle. Dr. Hitch, a trustee of the lilling spectacles, the true principle. Dr. Hitch, a trustee of the lilling spectant for it almost exclusively. With this system the most deheate and sensitive eyes, can be fitted with glasses so so curately that they are relieved of all strain, and thus they soon recover their lost strength. Spectacles fitted and

The Exposition Car

CHICAGO, July 18 .- The Chicago papers, to-day, devo e considerable space to a carload of specimens of Utah products, sent out for exhibition through the country by the Salt Lake Chamber of Commerce. The car is now on a side track here at the Union Depot, Canal and Van Buren Street, and is attracting mapy visitors. The Times pronounces the car a moving palace of mineral wonders and wealth, and adds: "The specimens are displayed in glittering nickel-mounted cases, and the display of rich minerals, which, as shown, are lying around in Utah waiting for the miner's pick, is wonderful Silver ore falls off the mountains in chunks so large that it would require a day's walk to get over them. Silica for glass making purposes runs siot, and sulphur is found 40 per cent. pure. Soda and and lithographic atone, largely imported from Canada, and sculptural marble as fine as that found in Italy. Any of these deposits are found in Utah in sufficient quantities to supply the nation." The car is in charge of H. L. A. Culmer and Douglas White, assis ed by Judge Colburn. Every attention is shown persons visiting the car. It will remain here until Thursday night. and Van Buren Street, and is attracting day night.

An Awful Catastrophe. NEW YORK, July 18.-The North German Lloyd steamship Fulda which arrived yesterday from Bremen, ran down an unknown fishing schooner on the banks of New Foundland, on Satur-

down an unknown fishing schooner on the banks of New Foundland, on Saturday. A dense log prevailed at the time, and the schooner disappeared astern almost immediately after the collision. Boats put out in search of her and for nearly an hour groped around in the log, but no traces of the schooner, nor of the twenty men belonking to her, were found. Many of the passengers on the steamer were horrified witnesses of the collision. The lost vessel was probably a French fisherman. The steamer's officers claim that all the usual precautions were being taken when the collision courred.

Gustave Schwab, agent of the North German Lloyd Lune in this city, said to day that the public feports of the collision were exaggerated grossly. Captain Kink's official report, Agent Schwab said, stated that the Fulda struck the schooner in a dense log, earrying away the bowsprit. This was all the damage that was done. The schooner's hull was not touched. The passengers on the deck of the steamer at the time grew excited and threw a number of life-preservers overboard, but this precaution was unnecessary. The cause of the socident, according to the captain's statement, was the neglect of the fisherman to sound its bel's during the log.

Hanged.

JERSEY CITY, N. J., July 18.-Henry Ebert, wife murderer, was hanged in jail here this morning. When the trap was sprung, the knot slipped around under the jaw and disarranged the cap so that Ebert's face was exposed to view as he slowly strangled to death. Ebert married his wife, who was a widow, to possess himself of \$1,500, which her former husband had bequeathed to the woman's child. Ebert failed. He then had his wife put into an insade asylum for the same purpose and when she was released, shot her dead as she was just entering their home. A pretended attempt to immediately kill himself was bootless, if, as probably was the case, he intended thereby to create sympathy. pathy.

pathy.
FREEHOLD, N. J., July 18—Richard
Kearney was hanged here to-day. He
was a conchman who attempted to
crim nally assault Mrs. Purcell, employed by the wealthy Lyddy family, at
Elberon. Kearney was foiled by his
victim, but he beat her savagely, and she died of the injuries.

The Chicago Dynamiters CHICAGO, July 18.-The course to be pursued in prosecuting the would-be assassins of Grinnell, Gary and Bonneld was decided upon this morning. It was semi-officially announced that the Anarchist trio would be taken before a justice about noon and the cases continued for ten days. That would give an opportunity of presenting the murderous assault with the least possible delay to the grand jury, which as-sembles on Monday. A speedy indict-ment and trial is hoped for by the au thorities with the object to make the lesson of justice so strikingly quick, if possible, as to make its obejet doubly

effective. The prisoners were brought into court and arraigned, and after a brief state-ment by Inspector Bonfield were held over. Their bonds were fixed at \$5,000 apiece.

California Fruit.

CHICAGO, July 18 .- The prices of California fruits at auction, to-day, were as follows: Plums, \$1.20 @ \$1.45; German prunes, \$1.20 @ \$1.45; Bulgarian prunes, \$1.00; peaches \$1.15 @ \$1.50. Only one car out of the four cars catalogued was sold, the other three cars not arriving on time. Prices were about the same as yesterday, with the exception of peaches, which ran 5 cents higher.

Washington, July 18 .- Naval officials are very much pleased over the success ful casting of the stern post of the cruiser (harleston at the Pacific Rolling Mills. The post is shown to have been exceptionally fine, extra smooth, sound casting of open hearth steel. The weight of the course placed in the furnace was 27,295 pounds of metal, and the dressed casting weighed 11,520 pounds.

To Include Telegraphs.

WASHINGTON, July 18 .- Senator Platt was authorized by the Senate committee on interstate commerce to report back (with verbal amendments) the Spooner bill subjecting the tele-graph companies to the jurisdiction of the interstate commerce commission, and regulate their operations in much the same way as the interstate com-merce law regulates affairs of the rail-roads.

The Iron Association.

PITTSBURG, July 18.-The Western Iron Manufacturers' Association was formally dissolved to-day. Members of the association who have not signed the amalgamated scale were absolved from all pledges and authorized to act in their individual espacity regarding the starting of their works. A general resumption will probably take place in a few

Fanny is Free

New York, July 18 .- Fanny Daven port Price, the actress, has been granted an absolute divorce by Judge Bar rett, of the Supreme ourt, from her husband, Henry H. Price. The detree was filed on June 8.
